Hydrophobia From a Cow.

William Cosvertek, his wife, son and hired man are in Pasteur Institute in New York suffering from hydrophobia as the result of having been bitten by a cow. Two weeks ago a mad dog bit the cow and a week ago the animal became wild and without warning turned on the three members of the family and the hired man and bit them all as they sought to help her. Yesterday all four developed hydrophobia.

benefit of his health. He went to the Hinton Hospital first but the doctors there advised a change of climate for him.

A. M. Oliver held singing service in the Methodist church here last Sunday afternoon. There was a fair crowd in attendance. Mr. Oliver is president of the Pocahontas County Musical Association. He was a sisted by Rev. Geo. P. Moore and Geo. L. Eakle.

Lincoln Cochran and his wife, who have had their youngest son at the Marlinton Hospital for the past week for treatment, were called to their home at Seebert last evening by a message announcing the serious illness ot their daughter with pneumonia.

News items this week are rather scarce. We have made a careful canvass of the whole community

tives in Augusta county. They will make their future home at Seebert.

- Circuit clerk J. H. Patterson suffered a stroke of paralysis last Tuesday night and is now in a critical condition at his home. A night session of court was being held and Mr. Patterson not feeling well started home before court adjourned. He was stricken on the steps and a passerby was attracted to him by his moaning. He was removed to his home where he has been unconscious ever since. His whole left side is paralyzed and little hopes are entertained for his recovery.

Hogs Dying Rapidly.

Following closely after the recent epidemic which proved fatal to so many horses in Wood county, this state, is a disease which is killing large numbers of hogs in that section. The epidemic has attained alarming proportions and in some parts of the county whole droves of hogs have died in the past two weeks.

Some assert that the disease is hog cholera, but others who have had experience with the disease claim it is not.

A quarantine has been established in the unaffected districts to prevent the spread of the disease, and it is hoped the epidemic can be checked. Already a heavy loss has been sustained by a number of farmers in Wood county, and owing to the fact that both hogs and horses have been affected by the mysterious malady it is feared that the situation may become serious.
